

Use this worksheet each week to keep track of badges you want to award to your classmates for their work and contribution. You can award as many badges as you choose, or none if you don't feel any were earned, but can **only award one of each badge each module**. **You cannot award yourself a badge**. You **can** award multiple badges to one person.

Use this worksheet throughout the module to keep track of outstanding contribution to the class either in their original post or through comments and feedback (or both).
